Add 30c per 100 for postage when wanted by mail	

To be sure of getting your plants

ORDER EARLY

and remember this: If our plants reach you in bad condition or poor plants are shipped you, some one in our employe has cheated us more than they have you, for they not only have cheated us of the money we have paid them to do good and honest work, but they will have cheated us out of our good name, in so far as you are concerned, and if you should (which rarely happens) receive plants that are not satisfactory to you in every respect, we will thank you to write us immediately, so that we may trace your shipment and find out why you did not get good plants. We will replace every plant that does not reach you in good condition.

From the first runner until the last delicious mouthful of berries have gone your strawberry bed will never cease to be a wonder and pleasure to you, and a more profitable plot of ground than your strawberry bed you can not have. More especially is this true if you use Thomas' Pure Bred Plants and get the same results, no more than you can get fine cattle or hogs from scrub stock. Our plants are bred and selected to produce the finest and best berries and they do, or we would not receive the re-orders year after year from our customers, nor the many thousand testimonial letters such as the one we reprint in part here:

Texas, Feb. 28, 1921.

Dear Sir:

I Know your Klondyke is the best in America, so I take 8,000 of them. I might need 2,000 more but I can't tell you now. Some Japanese who were here a long time ordered strawberry plants elsewhere and got very poor plants, so they sent them back. These Japanese do not know that your Klondyke is the best, but we who come from California know whose strawberries are the best. If you want more money than \$5.75 per 1000 (which price you made to me) I will pay more. I can pay you \$8.00 if you want.

Yours truly,

N. HAYASHIDA.

We shipped the above order of 8,000 plants March 7th and on April 23 a re-order of 4,000.

Thomas' Pure Bred Plants Please
